* Diagnosed Alpha-1
Antitrypsin deficient
+ Diagnosed family member

Dear Friend of Alpha-1:

I would like to enlist your support of the Alpha-1 Foundation's ongoing efforts in continuing its mission to provide finding a cure for Alpha-1 Antitrypsin Deficiency and to improving the lives of people affected by Alpha-1 worldwide.

Alpha-1 is a hereditary condition that is passed from parents to their children through genes. This condition may result in serious lung and/or liver disease at various ages in life.

We would be extremely grateful if you would support the Foundation's work by providing us with a donated item of your choosing to be featured on the online silent auction platform in conjunction with the **2022 Hybrid Alpha-1 National Conference** fundraiser to be held on **June 8th- 11th, 2022**. This is an excellent opportunity for your company to demonstrate your desire to help our community!

This event is the largest gathering of Alphas worldwide and we expect to have approximately 2,000 guests participate. They will include Alpha-1 patients, family members, and caregivers from across the country. Joining them will be prominent physicians, nurses, and medical professionals in the community.

The Time is Now: Alpha-1 Research and Education are at an all-time high we would be extremely grateful for your donation to help us get one step closer to the cure!

Thank you for your thoughtful consideration of this request. I would be happy to work with you on identifying other ways we could recognize your company's participation in this event. I look forward to hearing from you.

Sincerely,

Tax ID 65-0585415
