

State of Maine

WHEREAS, Alpha-1 Antitrypsin Deficiency (Alpha-1) is one of the most common and serious hereditary disorders in the world and can result in life threatening lung disease in adults and liver disease in both children and adults; and

WHEREAS, Alpha-1 has been identified in nearly all populations and ethnic groups, it is estimated that about 1 in every 2,500 Americans have Alpha-1 and up to 6 percent of Caucasians in the U.S. carry a single deficient gene and may pass the gene on to their children; and

WHEREAS, Alpha-1 is widely under diagnosed and misdiagnosed, and fewer than ten percent of those predicted to have Alpha-1 have been diagnosed, and it often takes an average of five doctors and seven years from the time symptoms appear before proper diagnosis is made, which can be done using a simple blood test; and

WHEREAS, It is important to increase awareness and detection of this serious hereditary and misdiagnosed disorder; and

WHEREAS, During the month of November, a nationwide awareness campaign will take place throughout the country to educate the public as well as the medical community on Alpha-1 detection and treatment for those affected by this condition.

NOW, THEREFORE, I, PAUL R. LEPAGE, Governor of the State of Maine, do hereby proclaim November 2018 as

Alpha-1 Awareness Month

throughout the State of Maine, and urge all citizens to recognize this observance.

In testimony whereof, I have caused
the Great Seal of the State to be
hereunto affixed GIVEN under my
hand at Augusta this second
day of November Two-Thousand Eighteen

Paul R. LePage
Governor

Matthew Dunlap
Secretary of State
